EXPERIENCE

Creative Designer, Flume Internet

2023-Present

Flume, a fiber ISP, brought me on to redesign most of their established branding. This included designing and animating elements for their website and app, as well as creating a variety of print assets and marketing materials for a national audience.

Graphic Designer, Short Order

2017-2022

I worked on a variety of projects for Short Order, a production house in Wilmington, DE. My responsibilities included producing graphic design and animated segments for a number of Short Order's clients, as well as working closely with the company director to brainstorm approaches to client work. I had also frequently directed animation on Short Order productions.

Our clients included DuckDuckGo, Equal Citizens, and M&T Bank, among others.

Creative Designer, Freelance

2013-Present

I have been freelancing as a designer for over a decade, and have worked with multiple agencies to create graphic design and animated content for industry conventions, independent film, Youtube, and more.

My clients have included Scientific American, Hackstone, Planet Ten, and NorthBay Adventure.

EDUCATION

MA in Digital Art, Goucher College

2011-2013

GPA 3.75
